When the number of call CRNAs exceed the number of holiday calls to be covered, there is a "no holiday call" category that is placed in the yearly rotation before, Thanksgiving, Christmas, New Years and Memorial Day and between July 4th and Labor Day. The CRNA(s) in the "no holiday call" category is subject to change at any time, based on staffing needs. When employee transitions to a call CRNA the date of transition will be used rather than date of hire.
